Title of Program:

Group Discussion - Human microbiome: the invisible organ

Day: Saturday

Date: 28th February 2026

Time: 12:00 am.

Beneficiaries: 18

Synopsis

Department of Zoology has organized Group Discussion on topic 'Human microbiome: The invisible organ' on the occasion of National Science Day on 28th February 2026. The program began with a brief introduction highlighting the importance of National Science Day, which commemorates the discovery of the Raman Effect by Sir C. V. Raman. Students of B.Sc. III & M.Sc. II has actively participated in this activity. The activity was organized under the guidance of Mr. R. J. Patil, IQAC coordinator, Dr. S. B. Pol, Head, Department of Zoology and faculty members of Zoology department. For this activity students are distributed in 3 groups and students are advised to prepare on the given topic. All the groups of students discussed about how gut microbiome is helpful to human & how to beneficial to our health. Students in different groups explained this points during the group discussion. Students from group 2 explained all points nicely & secured first place. Shinde P.R. mam conducted the group discussion.

Objectives
